### **Justice will be Served!**

**PROVERBS 25:15 NKJV – (15)** It is a joy for the just to do justice, but destruction will come to the workers of iniquity.

Maintaining true order (justice) establishes the well-being of those who live according to its principles. Those who abuse or violate these principles, will be undone. The wise discern this divine, providential order which though marred by sin is, to some degree, maintained in the world. God preserves such an order and it is our task to perceive His order and live in harmony as He has ordained. At the center of God's order is His Word and our faithful obedience to its direction. Such obedience is in truth "the fear of the Lord."

#### **THOUGHT FOR THE WEEK**

Injustice anywhere is a threat to justice everywhere.
